**FOODBORNE ILLNESS RISK FACTORS AND PUBLIC HEALTH INTERVENTIONS**

Foodborne Illness Risk Factors are important practices identified as the most prevalent contributing factors of foodborne illness or injury. Public Health Interventions are control measures to prevent foodborne illness or injury.

IN=In Compliance    OUT=Out of Compliance    NO=Not Observed    NA=Not Applicable    PV=Point Value  
 COS=Corrected on site    R=Repeat Violation

##	Description	Status	PV	##	Description	Status	PV
<b>Supervision</b>				<b>14. Required records available: shellstock tags, parasite destruction</b>			
1.	Person in charge present, demonstrates knowledge, performs duties	IN	2	IN	1		
1a.	Permit to operate valid	IN	2	<b>Protection from Contamination</b>			
2.	CFM/FH certifications valid, present	IN	2	15.	Food separated, protected from contamination	OUT	3
<b>Employee Health</b>				16.	Food contact surfaces cleaned, sanitized	IN	3
3.	Mgmt, regular/conditional employees; knowledge, responsibilities, reporting	IN	3	17.	Proper disposition returned/unsafe food	IN	1
4.	Proper use exclusion/restriction	IN	2	<b>Time/Temperature Controlled for Safety</b>			
5.	Procedures--vomiting/diarrheal events	IN	2	18.	Proper cooking time/temperature	IN	3
<b>Good Hygienic Practices</b>				19.	Proper reheating procedures	IN	3
6.	Proper eating/drinking/tobacco/vape use	OUT	1	20.	Proper cooling time/temperature	IN	3
7.	No discharge from eyes/nose/mouth	IN	1	21.	Proper hot holding/temperature	IN	3
<b>Preventing Contamination by Hands</b>				22.	Proper cold holding temperature	IN	3
10.	Adequate handwashing facilities--properly supplied/accessible/used	IN	2	23.	Proper date marking, disposition	IN	3
8.	Hands clean, properly washed	IN	3	24.	Time as PH control procedures, records	IN	3
9.	No bare hand contact with RTE, approved alternate procedures followed	IN	3	<b>Consumer Advisory</b>			
<b>Approved Source</b>				25.	Consumer advisory provided for raw & undercooked foods	OUT	2
11.	Food obtained from approved source	IN	3	<b>Highly Susceptible Populations</b>			
12.	Food received at proper temperature	IN	1	26.	Pasteurized food used; prohibited food not offered	IN	1
13.	Food good condition/safe/unadulterated	IN	2	<b>Food/Color Additives and Toxic Substances</b>			
				27.	Food additives approved/properly used	IN	2
				28.	Toxics properly identified/stored/used	OUT	2

**GOOD RETAIL PRACTICES**

Good retail practices are preventative measures to control the introduction of pathogens, chemicals, and physical objects into foods.

##	Description	Status	PV	##	Description	Status	PV
<b>Safe Food and Water</b>				<b>Proper Use of Utensils</b>			
30.	Pasteurized eggs used where required	IN	1	43.	In-use utensils properly stored/handled	IN	1
31.	Water and ice from approved source	IN	1	44.	Utensils, equipment, & linens: properly stored /dried/handled	IN	1
32.	Variance obtained specialized processing	IN	1	45.	Single-use/service; proper storage, use	IN	1
<b>Food Temperature Control</b>				46.	Gloves used properly	IN	1
33.	Proper cooling methods used; adequate equipment for temperature control	IN	2	<b>Utensils, Equipment, and Vending</b>			
34.	Plant food proper cook for hot holding	IN	2	47.	Food/nonfood surfaces cleanable, properly designed /constructed used	IN	1
35.	Approved thawing methods used	IN	1	48.	Warewashing facilities installed, maintained/used test strips present	IN	1
36.	Thermometers provided, accurate	OUT	1	49.	Nonfood contact surfaces clean	IN	1
<b>Food Identification</b>				<b>Physical Facilities</b>			
37.	Food properly labeled; original container	IN	1	50.	Hot/cold water available, safe pressure	IN	2
<b>Prevention of Food Contamination</b>				51.	Plumbing installed, backflow devices	IN	2
38.	Insects/rodents/animals/sign not present	IN	1	52.	Sewage/wastewater proper disposal	IN	2
39.	Contamination prevented during food preparation/storage/display	IN	3	53.	Toilet facilities properly constructed/supplied/used	IN	1

Inspector Name (Sign):

Signer Name: Ronald Connor  
 Task: Routine Health Inspection

## General Comments:

---

### Comments:

41. Wiping cloths properly used, stored **∴ Please make sure all wiping cloths are put in a sanitizer bucket when not in use**
55. Physical facilities installed/clean/maint.: **Please repair drainage to hand sink on the line. Please repair wobbly reach in fridge**
36. Thermometers provided, accurate: **Please provide thermometers for all refrigerators and freezers**
28. Toxics properly identified/stored/used: **Please make sure all cleaning supplies/ chemicals are in one designated spot**
6. Proper eating/drinking/tobacco/vape use: **Please make sure all employee food/ drinks are in a clearly marked designated area**
15. Food separated, protected from contamination: **Please do not store ready to eat food directly on rusted shelves. Please ensure proper arrangement of all food in reach in fridge. Please make sure all food is covered.**
- 

### IMMINENT HEALTH HAZARDS

Certain conditions are grounds for immediate facility closure-these conditions are called Imminent Health Hazards. Imminent Health Hazards include lack of hot/cold water, loss of significant portion of refrigeration on site such as loss of walk in cooler/walk in freezer, sewage backup, unsanitary conditions, lack of electricity, fire/flood, multiple complaints or apparent outbreak of foodborne illness, improper use of toxic materials on site, or any other incident or condition on site that may compromise food safety

***Facilities are required by law to contact COP Code Enforcement, cease all food preparation/service, and close voluntarily in case of Imminent Health Hazard.***

If an Imminent Health Hazard occurs, contact NRH Consumer Health immediately at any time by calling 817-281-1000 and asking for the health inspector on call.

### FOOD MANAGER AND FOOD HANDLER CERTIFICATION REQUIREMENTS

At least one person with supervisory capacity per food establishment permit will be required to become a Certified Food Manager (CFM). The original certificate verifying CFM training must be posted in public view. A CFM must be issued by a TXDSSH or ANSI-accredited agency: <https://dshs.texas.gov/food-managers/>

All other persons employed by the food establishment must obtain Food Handler certification from a TXDSSH or ANSI-accredited agency within 30 days of hire. <https://dshs.texas.gov/food-handlers/> Copies of this certification must be on site and available during inspection

### CHANGES TO MENU/EQUIPMENT/PLUMBING/FACILITY LAYOUT MUST BE APPROVED BEFOREHAND

Any changes to a food establishment menu, equipment, plumbing, or facility layout must be approved by NRH Consumer Health before changes are made.

### CONSUMER ADVISORY AND ALLERGEN LABELING

If an animal food such as beef, pork, lamb, poultry, milk, eggs, fish, or shellfish is served raw or undercooked, a written consumer advisory must be provided to consumers. An example of a written consumer advisory includes a note on the menu stating that, "Consuming raw or undercooked meats, poultry, seafood, shellfish, or eggs may increase your risk of foodborne illness, especially if you have certain medical conditions."

Packaged food that contains one of the eight major food allergens (milk, eggs, soy, wheat, peanuts, tree nuts, fish, or shellfish) must be labeled with a written allergen warning. An example of an allergen warning includes a label on the food product that states, "Food or beverages may contain milk, eggs, soy, wheat, peanuts, tree nuts, fish, or shellfish."

### WRITTEN EMPLOYEE HEALTH POLICY AND VOMIT/DIARRHEA CLEAN UP PROCEDURES REQUIRED

A written employee health policy and written procedures about how the food establishment will clean up after a vomit/diarrheal event are required on site. These policies must be available for inspection. Examples of these policies are available at [www.txdshs.gov](http://www.txdshs.gov).

### CERTAIN RECORDS MUST BE AVAILABLE DURING HEALTH INSPECTION:

Certain records must be available for review during a food establishment inspection. These include:

- Certified Food Manager/Food Handler training certificates,
- Grease trap service records (service is due every 90 days),
- Pest control service records,
- Daily temperature logs for all hot/cold hold equipment and as required by inspector,
- Logs related to a variance, specialized process, or HACCP plan.
