Comments:

23. Proper date marking, disposition: Please make sure all food is properly labeled and dated

28. Toxics properly identified/stored/used: Please make sure all cleaning supplies/ chemicals are properly labeled and stored when not in use

39. Contamination prevented during food preparation/storage/display: Please make sure all food is covered. Please make sure all employee items are separated from food/ food contact items. Please make sure all employee food/ drinks are in a designated place away from all food/ food contact items

44. Utensils, equipment, & linens: properly stored /dried/handled: Please make sure all utensils, pots, and pans are stored properly when not in use

48. Warewashing facilities installed, maintained/used test strips present: No data plate

49. Nonfood contact surfaces clean: Please clean out storage bins where icing is being held.

55. Physical facilities installed/clean/maint.: Please replace all rusted shelving and equipment. Please repair floor in walk in freezer. Please remove any equipment that isn't being used form the food establishment. Please do not hold equipment up with pans. Please repair floor in dish pit area. Please repair faucet behind the salad station

IMMINENT HEALTH HAZARDS

Certain conditions are grounds for immediate facility closure-these conditions are called Imminent Health Hazards. Imminent Health Hazards include lack of hot/cold water, loss of significant portion of refrigeration on site such as loss of walk in cooler/walk in freezer, sewage backup, unsanitary conditions, lack of electricity, fire/flood, multiple complaints or apparent outbreak of foodborne illness, improper use of toxic materials on site, or any other incident or condition on site that may compromise food safety

Facilities are required by law to contact COP Code Enforcement, cease all food preparation/service, and close voluntarily in case of Imminent Health Hazard.

If an Imminent Health Hazard occurs, contact NRH Consumer Health immediately at any time by calling 817-281-1000 and asking for the health inspector on call.

FOOD MANAGER AND FOOD HANDLER CERTIFICATION REQUIREMENTS

At least one person with supervisory capacity per food establishment permit will be required to become a Certified Food Manager (CFM). The original certificate verifying CFM training must be posted in public view. A CFM must be issued by a TXDSHS or ANSI-accredited agency: https://dshs.texas.gov/food-managers/

All other persons employed by the food establishment must obtain Food Handler certification from a TXDSHS or ANSI-accredited agency within 30 days of hire. https://dshs.texas.gov/food-handlers/ Copies of this certification must be on site and available during inspection

CHANGES TO MENU/EQUIPMENT/PLUMBING/FACILITY LAYOUT MUST BE APPROVED BEFOREHAND

Any changes to a food establishment menu, equipment, plumbing, or facility layout must be approved by NRH Consumer Health before changes are made.

CONSUMER ADVISORY AND ALLERGEN LABELING

If an animal food such as beef, pork, lamb, poultry, milk, eggs, fish, or shellfish is served raw or undercooked, a written consumer advisory must be provided to consumers. An example of a written consumer advisory includes a note on the menu stating that, "Consuming raw or undercooked meats, poultry, seafood, shellfish, or eggs may increase your risk of foodborne illness, especially if you have certain medical conditions."

Packaged food that contains one of the eight major food allergens (milk, eggs, soy, wheat, peanuts, tree nuts, fish, or shellfish) must be labeled with a written allergen warning. An example of an allergen warning includes a label on the food product that states, "Food or beverages may contain milk, eggs, soy, wheat, peanuts, tree nuts, fish, or shellfish."

WRITTEN EMPLOYEE HEALTH POLICY AND VOMIT/DIARRHEA CLEAN UP PROCEDURES REQUIRED

A written employee health policy and written procedures about how the food establishment will clean up after a vomit /diarrheal event are required on site. These policies must be available for inspection. Examples of these policies are available at www.

CERTAIN RECORDS MUST BE AVAILABLE DURING HEALTH INSPECTION:

Certain records must be available for review during a food establishment inspection. These include:

- Certified Food Manager/Food Handler training certificates,
- □ Grease trap service records (service is due every 90 days),
- □ Pest control service records,
- Daily temperature logs for all hot/cold hold equipment and as required by inspector,
- □ Logs related to a variance, specialized process, or HACCP plan.
