#### **General Comments:**

Per city ordinance, your health permit is being temporarily suspended due to the imminent health risk found during inspection. You may appeal this decision within 3 days with the municipal court.

You must pay a reinspection fee with the Permits office at 3523 Liberty Drive. Phone number 281-652-1638. This fee must be paid prior to a reinspection being completed.

#### Comments:

- 8. Hands clean, properly washed: Please do not use three compartment sink to wash hands
- 10. Adequate handwashing facilities--properly supplied/accessible/used: Please make sure every hand washing sink has soap and paper towels
- 15. Food separated, protected from contamination: Please cover all food in walk in cooler. Please have a designated area for employee food and drinks
- 16. Food contact surfaces cleaned, sanitized: Please replace rusted shelving in walk in cooler
- 23. Proper date marking, disposition: Please label and date all food in walk in cooler and reach In coolers
- 25. Consumer advisory provided for raw & undercooked foods: Please include consumer advisory on menu
- 28. Toxics properly identified/stored/used: Please keep cleaning chemicals in a designated spot away from all food and food contact items
- 35. Approved thawing methods used: Please thaw frozen items under running water or in the fridge
- 36. Thermometers provided, accurate: Please keep backup thermometers in walk in coolers
- 39. Contamination prevented during food preparation/storage/display: Please have individual scoops for each item in the flip top on the cook line
- 41. Wiping cloths properly used, stored .: Please place all wiping cloths in sanitizer solution when not in use
- 43. In-use utensils properly stored/handled: Scoops used for rice can not sit in bowls of water
- 44. Utensils, equipment, & linens: properly stored /dried/handled: Please do not keep utensils in walk in when not in use
- 49. Nonfood contact surfaces clean: Please deep clean or replace prep table

### **IMMINENT HEALTH HAZARDS**

Certain conditions are grounds for immediate facility closure-these conditions are called Imminent Health Hazards. Imminent Health Hazards include lack of hot/cold water, loss of significant portion of refrigeration on site such as loss of walk in cooler/walk in freezer, sewage backup, unsanitary conditions, lack of electricity, fire/flood, multiple complaints or apparent outbreak of foodborne illness, improper use of toxic materials on site, or any other incident or condition on site that may compromise food safety

Facilities are required by law to contact COP Code Enforcement, cease all food preparation/service, and close voluntarily in case of Imminent Health Hazard.

If an Imminent Health Hazard occurs, contact NRH Consumer Health immediately at any time by calling 817-281-1000 and asking for the health inspector on call.

### FOOD MANAGER AND FOOD HANDLER CERTIFICATION REQUIREMENTS

At least one person with supervisory capacity per food establishment permit will be required to become a Certified Food Manager (CFM). The original certificate verifying CFM training must be posted in public view. A CFM must be issued by a TXDSHS or ANSI-accredited agency: https://dshs.texas.gov/food-managers/

All other persons employed by the food establishment must obtain Food Handler certification from a TXDSHS or ANSI-accredited agency within 30 days of hire. https://dshs.texas.gov/food-handlers/ Copies of this certification must be on site and available during inspection

### CHANGES TO MENU/EQUIPMENT/PLUMBING/FACILITY LAYOUT MUST BE APPROVED BEFOREHAND

Any changes to a food establishment menu, equipment, plumbing, or facility layout must be approved by NRH Consumer Health before changes are made.

### **CONSUMER ADVISORY AND ALLERGEN LABELING**

If an animal food such as beef, pork, lamb, poultry, milk, eggs, fish, or shellfish is served raw or undercooked, a written consumer advisory must be provided to consumers. An example of a written consumer advisory includes a note on the menu stating that, "Consuming raw or undercooked meats, poultry, seafood, shellfish, or eggs may increase your risk of foodborne illness, especially if you have certain medical conditions."

Packaged food that contains one of the eight major food allergens (milk, eggs, soy, wheat, peanuts, tree nuts, fish, or shellfish) must be labeled with a written allergen warning. An example of an allergen warning includes a label on the food product that states, "Food or beverages may contain milk, eggs, soy, wheat, peanuts, tree nuts, fish, or shellfish."

### WRITTEN EMPLOYEE HEALTH POLICY AND VOMIT/DIARRHEA CLEAN UP PROCEDURES REQUIRED

A written employee health policy and written procedures about how the food establishment will clean up after a vomit /diarrheal event are required on site. These policies must be available for inspection. Examples of these policies are available at www.

### CERTAIN RECORDS MUST BE AVAILABLE DURING HEALTH INSPECTION:

### FOODBORNE ILLNESS RISK FACTORS AND PUBLIC HEALTH INTERVENTIONS

Foodborne Illness Risk Factors are important practices identified as the most prevalent contributing factors of foodborne illness or injury. Public Health Interventions are control measures to prevent foodborne illness or injury.
